

# The Coppersmith

## Estate Extension Installation Instructions

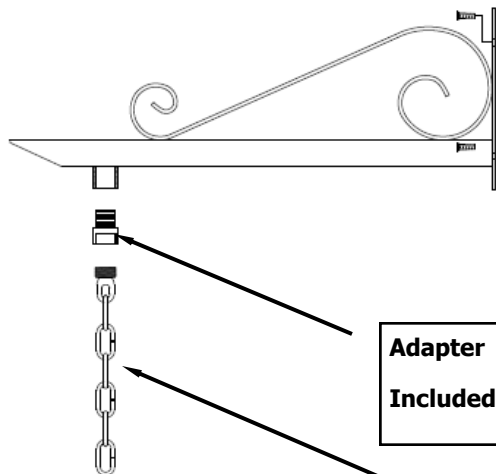

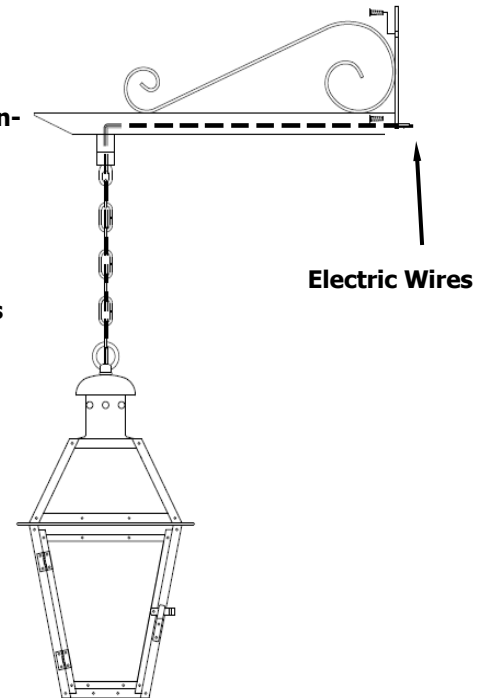

**Installation should be performed by a licensed electrician.**

Refer to the Gas and Electric Lantern Installation Instructions included with the lantern before beginning the installation.

The Estate Extension bracket can be used with Yoke, Stem and Chain hanging applications.

### Yoke and Stem applications for Chain Hung Lanterns.

1. Using the hardware shown below, connect the chain mount and lantern to the Extension Bracket.
2. Rout the electrical wire through the extension tube as shown.
2. Make the electrical connections (Refer to the Electric Lantern instructions)
3. Fasten the Extension bracket onto the mounting surface using the correct fasteners for the mounting surface material. (Not Included)
4. Use the same installation method when installing a Quartet Chain Mount. (QCM)

### Important note:

When using the Chain mounting option additional hardware must be used. This hardware is included.

**Adapter**  
Included with the Estate Extension Kit

**Brass Ring Chain connector.**  
Included with the Chain Mount Kit.
